

# HOW TO: DISPOSE OF TRASH

**STEP ONE** Retrieve your print outs from the printer located at the front of the room--directly across from the projector screen. There should be four sheets.

**STEP TWO** As a group, work together to place sheet #3 directly underneath sheet #1 and tape them together.

**STEP THREE** Place sheet #2 to the right of sheet #1 and tape them together.

**STEP FOUR** Finally, place sheet #4 underneath sheet #2 and to the right of sheet #3 and tape them together.

**STEP FIVE** Hold up the taped sheets to the class to showcase the image created.

**STEP SIX** Aggressively crumble and rip image and properly dispose of it in the trash can to the left of the door.

**FINAL STEP** Take that well-deserved bow.
